

XRPLToken.com | for a decentralised world

WHITEPAPER

Running on the XRP Ledger, XRPLToken positions itself as a pro-decentralisation peoples meme type coin, seeking greater opportunity for autonomous exchange of value for all people.

We aspire to show that the XRP Ledger is a great choice for those seeking decentralisation and bring people to the XRPL using the XRPLT token. Compared to most other blockchains the XRP Ledger is faster, cheaper to transact on and more secure. XRPLToken is a memecoin with impressive utility!

The main thing which differentiates XRPLToken from virtually all others is the way in which we are distributing the token. There will be no airdrop and instead 95% of all XRPLT will be distributed via Targeted Distribution to groups and individuals, Competitions and Giveaways, we anticipate that although somewhat slower, this will allow the currency to be distributed more widely, grow more naturally and be less subject to large holders manipulating the market price of the token. The total supply will have been distributed no later than the end of 2022, possibly much sooner.

Tokenomics

Symbol: XRPLT
Fixed Supply: 10,000,000,000

Xumm KYC: Yes
Black holed: Yes

To avoid some of the negative aspects of traditional airdrops there will be no airdrop of the XRPLT token. Those wishing to obtain XRPLT who are not part of the targeted distribution will need to take part in our giveaways/competitions (this does not guarantee receipt of XRPLT) or buy XRPLT using an exchange.

Targeted Distribution 50%

50% of XRPLT tokens will be distributed to specific groups and individuals whose values we feel align with our vision of a more decentralised economy. No individual wallet will be given more than 500,000 XRPLT. This will take place during 2021-2022.

Marketing/Listings/Giveaways/Competitions 45%

We aim to have distributed the entire 45% of XRPLT within 6-12 months from the token creation date (16/12/21).

Team 5%

- **For Education:** The XRPLToken team are giving XRPLT tokens to schools and teachers for free to help educate young people about Blockchain technology and how this technology is changing the way the world works. See our website: https://xrpltoken.com/?page_id=105
- **NFT's:** A total of 99 Limited Edition XRPLToken NFT's will be minted and sold off to the community, 100% of proceeds will be used to 'buy back' XRPLT at Market Value.
- **Promote development of uses through community engagement:** XRPLToken.com aims to encourage and support where possible all legitimate XRPLT use case opportunities community members would like to pursue.

WARNING: All users of the project agree to indemnify founders, developers, designers, engineers, associations, contributors, sponsors, marketers, traders, exchanges, and wallets, against any loss or damage, profit, capital, investment, in connection with all XRPLToken. associated transactions. XRPLToken.com advises that potential buyers should only convert assets to XRPLT that you are willing to lose. The current token economy has grown immensely and there have been a myriad of pump and dump/outright scams and schemes. The volatility within this market influences every coin involved, yes even ours! We encourage everyone to 'do your own research'.

Legal requirements: Legal requirements may vary per country and project. It is the responsibility of the legal entity to ensure legal compliance.
